

PROBLEM

기존 페이지는 서브메뉴의 배경에
마우스 오버했을 때 서브메뉴가 사라져서
불편하다고 느꼈습니다.

The screenshot shows the Subway website's homepage. A large green arrow on the left points to the right, containing the Korean text "K-바비큐" (K-Barbecue). On the right side, there is a promotional image for a "K-Barbecue" sandwich, featuring a person eating it. Below the main banner, there is a section titled "Subway's Menu" displaying four sandwich options: "에그마요" (Egg Mayo), "이탈리안 비엠티" (Italian BMT), "비엘티" (Belt), and "미트볼" (Meatball). Further down the page, there are sections for "써브웨이를 제대로 즐기는 방법!" (How to enjoy Subway properly) and "What's New". At the bottom, there is a footer with links like "프랜차이즈", "지사안내", and "광고영상". The right margin of the screenshot contains vertical text: "작업기한: 2020. 09. 11 ~ 2020. 09. 15 | 사용툴: Visual Studio Code | 제작 참여도: 100%".

SOLUTION

배경에 마우스 오버 이벤트를 주어 배경에
마우스 오버를 해도 서브메뉴가
올라가지 않게 했습니다.

This screenshot shows the Subway website's homepage after the solution was implemented. The "Subway's Menu" section is now displayed as a separate overlay, remaining visible even when the mouse cursor is moved over it. The rest of the page layout, including the main banner and other menu sections, remains consistent with the original design.
